WORK EXPERIENCE

OSEDEA

May 2014 - Present

- Worked as a web and mobile developer
- Built 24 apps for both iOS and Android. To develop more efficiently, I created a script that would generate the required assets for each app automatically
- Developed web applications for major companies in the Health and Mining sectors.
- Worked on a backend service for a Wedding application that would gather image feeds.
- Created a reusable skeleton application to facilitate other team members to rapidly create mobile apps for iOS and Android

OSEDEA

April - May 2014

- Worked as a web developer intern for a period of 1 ½ months
- Built two mobile apps for iOS and Android from the ground up for two distinct student-oriented companies
- Was responsible for creating a complete enterprise-level software solution encompassing databases, back-end and front-end to easily manage an insurance company's sales, track employee performance, do high-level analysis with in-depth filtering and displaying data in a user-friendly manner with the use of various graphs and charts.

A&M Services

2008 - 2011

- Used Sage Accounting software to complete tax forms.
- Minor enhancements to company's website.

Machinima Inc.

2009 - 2010

- Produced and directed gaming videos that were published on the company's website and YouTube channel.

ACADEMIC PROJECTS

▸ Business Software:

- Designed and developed a cash register system that keeps track of a store's stock and prints receipts.
- Created a calendar application which manages appointments and contacts using Java and MySQL.

▸ Video Games:

- Developed a 2D Brick-breaker game using C# and XNA Framework.
- Designed and developed multiple games using Visual Basic.

INTERESTS

- Reading tech news and blogs
- Biking
- Hockey and soccer
- Chess and card games
- Building PCs
- Filming and video editing
